

IDEA Alumni Testimonials

Dennis Tarnow, D.D.S.

Controversies and Innovations in Implants and Esthetic Dentistry: What we know, What we think we know and What we still don't know

“Delighted to have taken part in this course. Dennis Tarnow is a world expert and the small group size and hands-on are invaluable. Best CE I've ever taken. Great atmosphere, great food, great people. Worth the money.”

Stacey Matheson, Periodontist, Halifax, NS, Canada

“Dr. Tarnow is the best speaker I ever heard. He is a knowledgeable, approachable, and seasoned educator. The course was four solid days of subject matter that is relevant to daily practice, current, and simply ON POINT for all aspects of today's practice of implant dentistry.”

Bassem Farid, Oral Surgeon, Marina Del Rey, CA

“Outstanding training in the best of implant dentistry - from the great experience to the most up-to-date information that exists from Dr. Tarnow. Excellent setting, preparation, and attention to detail from Dr. Lamb and his IDEA team. Thank you!”

Maria Dona, Periodontist, Andover, MA

“Dr. Tarnow is a visionary who has changed the way I have practiced over several years of hearing him speak. The opportunity of having him as a mentor for 4 full days has re-charged my professional battery and I am excited to incorporate what I have learned into my practice.”

Graig Brown, Periodontist, Tucson, AZ

“IDEA has clearly brought in leaders in the subject material that is presented. This was one of the most comprehensive courses I have attended on the subject. It has been an honor to learn from someone I consider a brilliant mind in the field.”

Ben Lashley, General Practitioner, North Platte, NE

“In over 20 years of practicing periodontics, I have never attended a course with more useful information on all levels. Dr. Tarnow brings valid scientific evidence into everyday practical patient care of the highest level.”

Leslie Horn, Periodontist, Lexington, KY

“I appreciate the small size of the class (participants) that allowed for direct access to Dr. Tarnow. Great information in an intimate setting. Kept my focus for the entire four days.”

Graig Adams, Periodontist, Owensboro, KY

“I was incredibly pleased with my time at IDEA. The small group session provided an intimate learning experience and allowed for extensive Q&A time. Dr. Tarnow is amazing.”

His clinical experience, knowledge, and personality made for a perfect combination. The best CE experience I've had so far in my career."

Scott Robinson, General Practitioner, Catoosa, OK

"Another great course, that will force me to stretch out of my comfort zone and learn"

Yves Gagnon, Prosthodontist; Grand-Mere, QB, Canada

"What an amazing course! This is my 9th course at IDEA (yes that's right - my 9th course!). Why? I wanted to learn from the best of the best and here at IDEA - this is the "top gun" dental education place. If you are a great dentist and want to become even better - you need to come to Dr. Tarnow's course. There was not one moment that I was not blown away at Dr. Tarnow's depth of knowledge, experience, and passion. He teaches what every dentist should know about implants - bar none!"

Winston Wing, General Practitioner, Peace River, AB, Canada

"Dr. Tarnow is a phenomenal educator. As always, a great pleasure to hear him. Dr. Tarnow provided more information than what I got on my residency on the implant's topic. Mind opening and very generous with clinical tips, that I can implement in my office. And a lot of understanding "why" for the facets of implant dentistry."

Simona Katona, Periodontist, Chicago, IL

"The speaker, facility, and accommodations have exceeded my expectations. None of my questions went unanswered, and I'm returning to my practice energized and excited. These 4 days have turbo-charged my confidence which will translate to taking better care of my patients"

Brandon L. Grantham, General Practitioner, Copperas Cove, TX

"This is the best continuing education course I have ever attended in my 40 years of dental practice. Best value for money. It provides not the odd light bulb moment but more like a whole chandelier of lights going on. Denis Tarnow's presentation, teaching style, and depth of knowledge is 2nd to none. I cannot recommend this course enough to any dentist wishing to further their knowledge in implant dentistry."

Alex McIntosh, General Practitioner, Auckland, New Zealand

"Taking this course with Dr. Tarnow "boosted" my knowledge. He organized all the information and techniques I've seen in other courses and made me understand which I should use and why. He is a master surgeon, researcher and teacher."

Xiaowen Zhang, Prosthodontist, Buenos Aires, Argentina

"1. Excellent lecturer who provided a comprehensive and integrated picture of implant dentistry and implant research. 2. We were well looked after; before and during the course. 3. Group size was perfect for learning, collegiality and discussion."

Aidan Yeo, Oral Surgeon, Singapore
