Heike Kraemer, Dr. med. dent., M.Sc. and Team

Occlusion of the 21st Century: Advanced & Evidenced-based - A Career and Practice Changer

"This course has completely changed my understanding of what's possible in dentistry. Great introduction into Slavicek-Sato treatment philosophy that left me eager to learn more"
Denys Kovalchuk, General Practitioner, Mill Valley, CA

"The lecture/seminar was great and excellent! Definitely I will incorporate what I have learned. The treatment planning was what I liked most. Dr. Kraemer was perfect and clearly explained. The overall presentation was very nice! It's so good to learn from Prof. Sato again"
Susan Casipit, Orthodontist, Lingayen, Philippines

"I came into this course wanting to improve my knowledge of occlusion concepts and prevent failures in dentistry. I believe this course has provided ready-to-implement techniques that I can immediately implement and improve outcomes for my patients"
Antonio Cutlatsakes, General Practitioner, New York, NY

"This is a great class. It gave me more information, or what is going on with my patients' occlusion and TMJ. It gave me a new perspective on how to look and diagnose the problems as well"
Geoffrey Pena, General Practitioner, Tracy, CA

"Thank you very much Dr. Heike, you were very generous and very clear in your teaching throughout the two days. It was really an eye opener course! Thanks"
Zeineb Kharouf, General Practitioner, Tunis, Tunisia

"An eye opener course, it makes you rethink all the concepts you learned in dental school or any other course. A mind-expanding course. Thank you!"
Mouna Hachichou, General Practitioner, Surrey, BC, Canada

"As a new dentist and an orthodontic resident, this course helped me a lot in understanding occlusion and helping my patient be relieved of symptoms in the future. That alone makes it worth it!"
Joseph Casipit, General Practitioner, Lingayen, Philippines

"An excellent course changed my way of thinking of the way to diagnose and treatment plan occlusion cases. Very happy with the course"
Rajiv Garg, General Practitioner, Hemet, CA

Occlusion was, and still is, a quick of discussion in school. This course has been helpful in showing me occlusion in 3-dimension and understand how everything comes together and works together"

Teresa Le, General Practitioner, Pomona, CA

"One of the best courses I've taken. Everything was first class! Thank you!"

Randy Fong, General Practitioner, Santa Ana, CA
